ABOUT ME

Senior Full Stack Web Developer with project management skills and seven years of experience. Helped startups secure tens of millions of dollars in investments. Open to remote jobs and visa sponsorship.

WORK EXPERIENCE

Archive.com   Miami, USA
Senior Staff Software Developer, Project Manager   *Jan 2022 - Present*

- As a PM, I oversaw the development of a cutting-edge product within **6** months, amassing millions of active users with a **40%** month-over-month growth rate and onboarding top-tier clients such as **Glossier**, **Kitsch**, **The Feed** and **HVMN.**
- Conducted **30+** technical interviews to identify top-quality Senior Software Developer talent, resulting in **3** successful hires.
- Executed extensive frontend refactoring of 10K+ lines of code to gradually incorporate TypeScript using ts-migrate, mitigating over **75%** bugs in production.

Bonfire   San Francisco, USA
Senior Full Stack Developer   *May 2021 - Aug 2021*

- Implemented an airdrops feature on blockchain which helped to attract **10+** new B2B clients and **tens of thousands of dollars** in Monthly Recurring Revenue
- Introduced sound type annotations which alleviated financial bugs & led to a saving of **$3,000+** monthly in maintenance & support costs.
- Built a solid archectural foundation, based on Next.js, PostgreSQL, Redis for caching and Amazon SQS for background jobs

rabota08.ru   Moscow
CTO   *Sep 2021 - Jan 2022*

- Developed & launched an alpha version of the website from scratch in under **3** months, with daily website clients exceeding **5K**, **1K+** telegram subscribers and MRR exceeding **$10.000**
- Conducted business dev to onboard CTO of private companies and heads of local government organizations with combined revenues in **billions of dollars.**
- Delivered tailored pitches to **20** high-level executives showcasing potential ROI, to successfully board **5** new customers within **4** weeks.

Busbud   Montreal, Canada
Senior Fullstack Developer   *Jul 2019 - May 2021*

- Added support for selling train tickets, which increased the amount of sold tickets by **$100.000**+ monthly
- I oversaw the localization of our web application into a new language for entry into a market with 127 million users and a potential for **$10M+** in monthly revenue, working closely with stakeholders and supervising translators.
- Refactored parts of legacy backend codebase with TypeScript, improved test coverage to **80%** with Jest, and reduced CI time by **30%** which increased the velocity by **15%**

Vayable   San Francisco, USA
Full Stack Developer   *May 2019 - Jul 2019*

- Upgraded $2M legacy codebase from Rails 3 to Rails 5 across **100,000+** active user sessions, completed in **8** weeks.
- Moved to a new React.js frontend, which allowed for many QoL features, improved performance and gave a foundation to mobile app
- Optimized test frameworks by integrating Rspec, FactoryBot and Capybara to drastically improve test coverage rate to over 90%, resulting in an 80% decrease in users' complaints.

Krypton Capital
Full Stack Developer   *Dec 2017 - May 2019*

- **jury.online:**
- I single-handedly created a dashboard from the ground up for a blockchain startup that garnered over 3 million USD in investments during its ICO.
- Developed a JSON API with 40+ endpoints with accompanying Swagger documentation to be used by partners and React-based frontend
- **buzz.im:**
- Optimized performance to achieve 90+ scoring on Google PageSpeed Insights
- Improved SEO to get into top 3 positions in Google Search with the relevant keywords
- Worked with the developers of a telegram bot with 20+ JSON API endpoints to integrate its capabilities into the platform
- Developed a JSON API with accompanying Swagger documentation, which is used by Vue.js frontend
- Worked with with designers on mockups for a design revamp, integrated the resulting 30 screens into the platform.

Freelance   **New York, USA**
Fullstack Developer   *Feb 2016 - Dec 2017*

- Worked as a freelance Ruby on Rails developer under a guidance of Senior Software Developer from Zillow Group.
- Built a template of a web application with Ruby on Rails that is being sold to startups in the real state business to help cut time for building MVPs in half
